

Igor Shevelev

+995 511775905 | redmarsigor@gmail.com

Education

Moscow Institute of Physics and Technology, BSc Computer science

2015-2019

Professional Certifications

42 Paris | (Peer to peer based international IT program)

2020-2022

Experience

RGB code | Israel, Tel Aviv-Yafo (Remote)

October 2023 - September 2026

Frontend Developer

- Developed and maintained frontend applications for a large-scale event ticketing platform serving the Israeli market, across customer-facing and internal management products.
- Implemented complex product functionality using React, Next.js, TypeScript, and Tailwind CSS, covering business logic, API integrations, and interconnected platform areas.
- Built and maintained application state management using Zustand and Redux, integrating frontend state with complex product workflows and backend services.
- Delivered pixel-perfect interfaces from designs and mockups while independently developing layouts, UI components, animations, and interactions.
- Contributed to a major frontend redesign and migration to a new UI/UX system while continuously integrating new product functionality.
- Owned features across event management, order workflows, agent management, dashboards, and bulk operations from requirements through production.
- Worked closely with backend developers, QA engineers, and designers in an international team, with ownership of responsive behaviour, accessibility, edge cases, and LTR/RTL layouts.
- Supported broader engineering initiatives beyond core frontend development, including scanner functionality, deployment process improvements, HTML email templates, and internal tooling.
- Used Cursor and Codex as part of an AI-assisted development workflow for feature development, debugging, and code review, independently validating generated code before production.

4EC labs | UK, London (Remote)

March 2023 - July 2023

Web developer

- Developed responsive multi-page websites from technical requirements and designs, collaborating closely with designers.
- Delivered pixel-accurate interfaces, animations, and interactive components across multiple projects and deadlines.

Freelance | (Remote)

October 2022 - February 2023

Web developer

- Worked directly with clients to gather requirements and deliver responsive, pixel-accurate websites tailored to business needs.
- Managed multiple projects independently, adapting to changing requirements and supporting delivery through deployment and post-launch.

Sberbank | Moscow, Russia

February 2021 - September 2022

Java Developer

- Developed and maintained backend functionality in Java within a large-scale banking technology environment.
- Implemented backend features, wrote automated tests, and participated in code reviews while working within established development standards and processes.
- Collaborated with other developers through planning, testing, code review, and iterative delivery of production functionality.

Skills

Frontend: React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS

State & Data: Zustand, Redux, React Query, React Hook Form, REST APIs

Linguistic: English (Fluent), Russian (Advanced)
